

ST. LUKE'S

LUTHERAN SCHOOL

St. Luke's is adding a gifted program to further prepare students for high school. The program will be formatted into a two-year model. In the first year, students in first through fifth grades will experience a half-day pull-out program designed to challenge beyond the current curriculum. In year two, the program extends to a full-day pull-out, further enriching and enhancing students' academic background. In conjunction with intelligence testing, a checklist of gifted student behavioral characteristics will be completed and reviewed to determine eligibility for the program. For more eligibility information, please review the parent/student handbook.
